What is Lifeline?

Every person in America should have access to quality, affordable telecommunications service.

This principle of “Universal Service” has been the goal of the telecommunications industry for decades. In 1934, the federal government codified the goal and reaffirmed it in 1996 by establishing policies for the “preservation and advancement of Universal Service.”

To achieve the Universal Service goal, carriers have access to a fund that is generated by contributions from the telecommunications providers in the United States. Telecommunications companies draw from the fund to provide four programs that support telecommunications services nationwide.

Toll Limitation Service is another program available to low income subscribers to help them control what they spend on phone service.

Lifeline and Toll Limitation Service support provide discounts to eligible low-income consumers to help them establish and maintain phone service.

What Type of Discount Is Available?

Lifeline assistance lowers the cost of basic monthly local phone service. Eligible consumers can receive up to \$17.02 per month in discounts. Please visit a Nex-Tech store to see what discounts are available in your area.

Toll Limitation Service (TLS) support allows eligible consumers who wish to avoid incurring large long distance fees to choose toll blocking or toll control at no cost.

How Do I Know Whether I Am Eligible?

Eligibility for Lifeline and TLS support varies by state. Individuals who reside in states that have their own discount programs qualify for federal Lifeline and TLS support if they meet the eligibility criteria established by their state. 1. Temporary Assistance for Needy Families (TANF)
2. Supplemental Security Income (SSI)
3. General Assistance (GA)
4. Medicaid
5. Food Stamps

Also, a consumer may be eligible if his or her household income is at or below 150% of the federal poverty level. A consumer must provide THREE CONSECUTIVE MONTHS of statements as documentation of income, or provide a copy of their tax return for the previous year.

Who Qualifies for Lifeline?

Eligibility requirements for both State and Federal are to provide proof of participation in one of the following programs:

- Food Distribution Program
- Temporary Assistance for Needy Families (TANF)
- Supplemental Nutrition Assistance Program (SNAP)
- Medicaid
- Supplemental Security Income (SSI)
- General Assistance

Statement Regarding Functionality in Emergency Situations

47 CFR § 54.313(a) (6)

Form 481, Line 610

Rural Telephone Service Company, Inc. dba Nex-Tech (Nex-Tech) has developed an extensive and detailed emergency management plan.

Nex-Tech's traditional voice service switching platform is fully redundant and is geographically separated. Redundant switches are connected using an IP network that is redundant and diversity routed. The platform is fed by a DC power plant with 8 hour operating battery backup. The core backbone network consists of six interconnected rings which provide 100% fiber route diversity between central offices. The transport is redundant at card and optical level.

Nex-Tech has developed a "Disaster Trailer" which is essentially a portable central office. The "Disaster Trailer" is capable of fiber and copper connection and has relay racks to accommodate additional equipment. This allows Nex-Tech to provide emergency switching. Nex-Tech also has 74 generators available at various locations to provide power to the network during any extended outages.

Nex-Tech has an onsite command center mobile office which would allow management and plant personnel the ability to set up a mobile office if a disaster occurs.

Nex-Tech has instituted a 24 hour Network Operations Center (NOC) which monitors the network and is able to reroute traffic and manage traffic spikes during a disaster or other emergency situation.

Broadband services also has a redundant DC battery power supply at the router locations and all are backed up with generated power at each location in case of power outage. Separate and different transport connections are available to insure internet transport from the router to the internet backbone.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0572-0031.
